De-icers & White Rock Salt

Need Gritting Salt or Rapid Ice Melt? Fastest Delivery!

Seton are one of the few suppliers in the market who sell gritting salt in single bags, as well as multi-packs or a pallet of 100. Our fast acting rock salt will help to reduce the dangers associated with these hazards on your premises.

Winter kits are an essential for businesses in preparation for harsh weather conditions. Cold months come hand in hand with the heightened risk of trips and slips. Factors such as snow and ice on access roads and car parking areas increase the chance of accidents occurring. Before the cold weather begins to set in, preparatory work should be undertaken to lower the risk of accidents on your premises caused by ice, snow, slippery surfaces and freezing temperatures. Our wide selection of effective de-icers and gritting salt are always in stock to offer swift delivery.

Winter

Peacock Salt has been developing products and services to meet our clients' changing needs. This broad range of products includes liquids, which offer low working temperatures, as well as low and noncorrosive and longer-lasting de-icers which have been developed during extensive trials throughout the UK. Our new range of purpose-built salt spreaders cover all areas and surfaces with unprecedented accuracy and control. We have also developed a free App which helps you make good decisions for your Winter Maintenance Management.
